ABOUT THE CONFERENCE

Indian National Education Policy (NEP) was framed in 1986 and modified in 1992. Since then significant changes have taken place in the country, society economy, and the world at large. While realizing education sector needs to gear itself towards the demands of the 21st Century and the needs of the people and the country, Government of India launched New National Education Policy early this year.

The new NEP-2020 that proposes sweeping changes needs an inquiry to trace education for peace or peace education in this policy which has potential to transform nation and entire humankind at large. In this regard, BGSBU and the small organization(ACI) tried to bring all stakeholders - academia, think tanks, experts, social scientists, peace educators, activists and budding scholars representing leading universities/ institutions/ organizations across globe at one platform to discuss/assess the presence, need, promotion and introduction of peace education as an integral part of NEP-2020 at all levels.
